@ THE 10TH INTERNATIONAL COATING & LAMINATING CONGRESS

Last week ChemStream attended [this congress in Ghent \(26-27 Sept. 2019\)](#) where the latest developments concerning the coating of textiles and the integration of smart functionalities in textiles were discussed.

Nils De Vos gave a lecture with the title: "Smart design of polymeric dispersing agents for high-performance inkjet inks" and received many questions from interested parties.

We also manned a booth in the central area of the congress, where we met many people and had great discussions about our [services and expertise](#).
